DETAILED ACTION

The amendment filed on November 5, 2002 have been received and entered into the application.

Applicant's arguments with respect to claims 21-32 and 39 have been considered but are moot in view of Applicants' amendment.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 21-32 and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Heaton et al. (1995) of record.

Heaton et al. on the abstract disclose an aqueous nasal spray apomorphine preparation.

Therefore, Applicants' claimed limitation of a formulation for enhanced nasal delivery which yields enhanced nasal absorption of apomorphine compound to produce a therapeutic result in a subject within certain amount of time would be an inherent property of the well known apomorphine nasal preparation as taught by the above reference.

Art Unit: 1617

As stated in *In re Spada*, 911 F.2d 705, 708, 15 USPQ2d 1655, 1657 (Fed. Cir. 1990) "discovery of a new property or use of a previously known composition, even when that property and use are unobvious from the prior art, can not impart patentability to claims to the known compositions". Therefore, Applicants' use of the above well known apomorphine nasal preparation taught by Heaton use in a particular subject to achieving certain effect does not impart from the prior art preparation itself.

For these reasons the claimed subject matter is deemed to fail to patentably distinguish over the state of the art as represented by the cited references. The claims are therefore properly rejected under 35 U.S.C. 102(b).

None of the claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1617

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
